

5th February 2021

Dear Parents and Carers

Thank you for everything you are doing at home to support your child with their learning. If we can support you and your children in any way please get in touch with us.

St, John Bosco pupils have amazed us with their efforts and learning from home! I am sure this will continue to grow over the coming weeks.

As we try to provide the best remote learning we can for your children we would like to know how we can continue to support you and make our provision even better, therefore we would like to ask you to spare a few minutes to complete our questionnaire (either the paper copy or using the link below which can also be found on our website).

Increasing Data Allowances on Mobile Phones

This scheme temporarily increases data allowances for mobile phone users on certain networks. This will allow other devices to connect to the internet via a mobile phone so children and young people can access remote education if their face-to-face education is disrupted. This support is now available to all schools with children in years 3 to 11. They must meet all 3 of these criteria:

- do not have fixed broadband at home
- cannot afford additional data for their devices
- are experiencing disruption to their face-to-face education

Providers include: EE, O2, Sky Mobile, SMARTY, Tesco Mobile, Three, Virgin Mobile, Vodafone

For each request, we would need to know:

- the name of the mobile phone account holder
- the number of the mobile device
